JWA lifeboat test kits are a complete solution for the safe, efficient and accurate water weight load testing of lifeboats, walkways & structures. Durable, easily handled and with a wipe clean surface, the bags are fabricated from a tough PVC fabric with a load bearing structural polyester scrim, coated with PVC for durability & UV resistance.

Our hoses, manifold and pumps are all precision made from the highest quality material to ensure durability and value for money. Supplied complete in a fork lift/crane sling compatible, heavy duty plastic transit case ready to test.

Bag Sizes from 75KG to 500KG available.

Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.
